

**SMITH, CHARLIE**

DOB: 1/15/1981

Patient #: 5475211/1

Provider: Henry Seven

DOS: 7/15/2019 7:18 AM

Gender: Male

Location: NJ Office

Intake Assessment**CC/HPI****HPI:**

Mr. Smith is 38 years old male presented in the Emergency Department (ED) at Newbridge Hospital with a laceration on his arm. It is noted that the cause of Mr. Smith's injury was not clear and that he appeared overly anxious even after his laceration was addressed. Following treatment, Mr. Smith is discharged and recommended to follow-up with his primary physicians.
